WORCESTER, MASS.

July 20, 1936

Dr. Nicolas Margineanu
University of Cluj
Rumania

Dear Dr. Margineanu:

Your timely critique of Lewin's conception of laws, in the *Journal of General Psychology* for 1935, deeply interests me. I am in substantial agreement with the point of view you express and I am sure that a great many other psychologists feel as you do.

If you have a reprint of this paper that you could contribute to my files I should be very grateful.)

Sincerely yours,

A handwritten signature in cursive script that reads "Saul Rosenzweig".
