June 8, 1933

Dear Dr. Margineanu:

Thank you very much for your letter of June 7 telling me about the progress of your work and how your plans for the future are developing. I am sure that your project for experimental work is well chosen and that your decision to carry it out at Harvard is a sound one.

I hope that you find your facilities for work comparably satisfactory at Chicago. I have had a note from Thurstone saying that he would be very glad to see you and give you any help within his power during the summer term.

Cordially yours,

Stacy May
